these essays on matters biblical theological historical and beyond pay tribute to the multidisciplinary impact of paul livermore founding faculty member and professor emeritus of northeastern seminary at roberts wesleyan college rochester ny

the discussion concerning markan characterisation and markan genre can be helpfully informed by bakhtinian categories this book uses the twin foci of chronotope and carnival to examine specific characters in terms of different levels of dialogue various passages in mark are examined and thresholds are noted between interindividual character zones and between the hearing reader and text voices several generic contacts are shown to have shaped the text's genre memory in particular the graeco roman popular literature of the ancient world the resultant picture is of an earthy populist gospel whose voices resonate with the vulgar classes and whose spirituality is refreshingly relevant to everyday concerns

this volume advances our understanding of two highly debated aspects of grammaticalization its relation to inter subjectification and its directionality these aspects are studied with respect to such phenomena as auxiliaries discourse markers conjunctions prepositions and pronouns bringing together a wide range of languages the collection provides insight into the crucial dimensions of grammaticalization research

editors introduction background currently we are living in the fourth industrial revolution by which computers automation robots and people will work together in entirely new ways applying technological innovations will help the production process faster less manpower and more fully collected data product quality is ensured by controlling raw materials to forming and transferring to consumers however it may have raised many issues for humans one of its drawbacks is many workers will lose their jobs due to replacement machinery while businesses may face difficulties in recruiting human resources to meet the requirements of the job this can lead to inequality even to break the labor market economic uncertainties will lead to instability in life and even politics in addition new technology will cause changes in power security concerns and a big gap between rich and poor or the way of communication through the internet which challenges information security for both people and political systems these problems have urged the world to find the right solutions urgently to attain sustainable development which is favor of the buddhist philosophy in this theme we highly focus on the buddhist approach and response to the fourth industrial revolution to generate happiness and peace for humankind

pcmag.com is a leading authority on technology delivering labs based independent reviews of the latest products and services our expert industry analysis and practical solutions help you make better buying decisions and get more from technology

the kurdish iraqi conflict lies in the fact that kurdistan is a nation without a state and iraq is a non nation state each possessing a nationhood project differing from and opposing the other iraqi kurdistan is an outward looking entity seeking external patronage though external patronage has played a pivotal role in the evolution of the kurdish quasi state a lack of positive patronage has prevented it from achieving independence this book looks at how the kurdish and iraqi quests for nationhood have led to the transformation of iraqi kurdistan into an unrecognised quasi state and the devolution of the iraqi state into a recognised quasi state this is done by examining the protracted iraqi kurdish conflict and by analysing the contradictions and incompatibilities between the two different nationalisms iraqi and kurdish the author explains that kurds as a nation without a state have their own nationhood project which is in opposition to the iraqi nationhood project each has its own identity loyalty and sovereignty the book answers the question as to how the kurdish quest for nationhood has been treated by successive iraqi regimes furthermore it fills in the literary gaps which exist in relation to the iraqi kurdish conflict by specifying and categorising the cardinal conditions that drive ethnic and nationalist conflicts which lead to the creation of separatist entities drawing upon a vast amount of untapped kurdish and arabic primary sources the book draws on prominent theories on nation states and quasi states it will particularly appeal to students and scholars of international relations political theory and middle eastern studies

the signing of the paris agreement in 1973 ended not only america s vietnam war but also richard nixon s best laid plans after years of secret negotiations threats of massive bombing and secret diplomacy designed to shatter strained communist alliances the president had to settle for a peace that fell far short of his original aims
